90'S
STORY

"REMASTERED" STAGE PLAY

executive produced by Yolanda Brathwaite

written and directed by Tee Marie

SYNOPSIS

Remember back in the 90's when people had house parties and the person you called your "uncle" or "aunt" wasn't really family? Michelle Bell knows all about that in Tales Of A Grown Girl Remastered.

From the time Michelle was 12 she was mistreated and abandoned by those who were supposed to care for her the most. Follow this 90's teenager's story as she and her friends use Hip Hop to get through their ups and downs.

Loosely based on the life of Yolanda Brathwaite, this story is for anyone who has survived domestic abuse or who may currently be experiencing some form of abuse. Presented by the Non Profit Organization, Grown Girls NYC, Inc. ticket proceeds help survivors of domestic abuse. Based on the Amazon Best Selling Book, Tales Of A Grown Girl: Sex, Drugs & Freedom.
